SKILLS

FOOD PHOTO GRAPHY

I love food, I love food photos, why do not join them together? Here's my offer for restaurants and chefs, whose desire is to show their amazing dishes on es book. A food photography that follows my only guideline: telling the truth.

THE ROYAL HOTEL

Food Photography for **RESTAURANTS AND CHEFS**

My goal is to represent your food, your creations, your dishes enhancing the quality and presentation of these and therefore creating feelings of appetite at first sight to your customers: no "fake" photos, just true pics.

As films are directed in a backstage environment, also your food is created behind the kitchen and your chefs deserve to be portrayed during the making of their wonderful dishes: that's why my photography focuses in showing the real world of food and kitchen, letting the customers have a clear idea of you as chefs and the atmosphere of your fantastic restaurants.

PROPERTY PHOTOGRAPHY

Property Photography for
**REAL ESTATES,
RESTAURANTS,
HOTELS AND
GYMS**

The first thing I do when I enter a room is to find the best angle for the 'hero' shot.

My starting point is always to catch the best lights and shadows for your pictures in order to meet your photography desires and to let your customers love your services and products.

THE TRUTH**

I am a storyteller and I love describing through photography every single event of real life: during my reportages, the protagonists of the pictures feel completely at ease, don't notice to be photographed and are shown for what they and their lives are.

A low-angle, upward-looking shot of a yellow and purple roller coaster car filled with wedding guests. The car is tilted upwards, and the passengers are laughing and waving their hands. The background is a bright blue sky with wispy white clouds. The roller coaster's yellow track and wooden support structure are visible on the left and right sides of the frame.
